About Glacia WTR

At Glacia WTR, we believe water should be more than just a drink — it should reflect your brand, your story, and your style. That's why we specialize in custom-branded bottled water for cafes, restaurants, hotels, and special events. Our premium bottles are not only filled with pure, refreshing water, but also carry the identity of your business with elegance and impact. Whether you're hosting an event, running a luxury venue, or want to elevate your customer experience, Glacia WTR helps you make a lasting impression —

one sip at a time. Purity in Every Drop. Identity in Every Bottle

Our Place & Water Quality

At Glacia WTR, we take pride not only in how your water looks — but in where it comes from and how pure it is.

 **Sourced Responsibly:** Our water is collected from certified, hygienic sources known for their clean and mineral-balanced profile.

 **Advanced Purification:** Each bottle goes through a multi-stage purification process — including RO, UV, and ozonation — ensuring 100% purity without compromising natural taste.

 **Bottled with Care:** Our facility follows strict FSSAI standards for safety, cleanliness, and quality control.

 **Crystal Clear Taste:** We ensure every drop is fresh, crisp, and healthy — perfect for drinking, serving, or gifting.

From our clean facility to your brand's hands, Glacia WTR delivers water that's not just safe — but exceptional.

Giving Back to Nature

At Glacia WTR, we believe that every drop we take from nature should be honored with responsibility.

🌱 **Eco-Friendly Packaging:** We use recyclable materials and encourage responsible disposal to reduce plastic waste and protect the planet.

💧 **Water Stewardship:** Our sourcing is done mindfully — ensuring minimal environmental impact and maintaining balance with local ecosystems.

🌍 **Sustainability at Heart:** We're committed to sustainable practices in our bottling, labeling, and logistics — aiming for a cleaner, greener future.

Together with our partners and clients, we're building a brand that hydrates people without drying out the Earth.

Consistent Customer Service Support

We believe in long-term relationships, not just one-time sales. Our support team ensures smooth, responsive communication before and after your order.

Low MOQ, High Impact

Perfect for businesses of any size — get your custom bottles without the pressure of large quantity commitments.

Unmatched Water Quality

Filled with ultra-purified, crisp, and safe water using advanced RO, UV, and ozonation processes.

Fast Turnaround & Doorstep Delivery

Quick production, reliable delivery — so you're never left waiting when it matters most. With Glacia WTR, you're not just getting a water bottle — you're getting a full-service brand experience that's clean, classy, and unforgettable.

Superior White Bottle Caps

 Elegant • Durable • Hygienic

At GlaciaWTR, every detail matters — even the cap. Our premium white bottle caps are designed to match the sophistication of your custom bottle.

These caps are:

- ✓ Sleek and Minimal – Clean white finish that complements any branding.
- ✓ Food-Grade & Safe – Made from BPA-free, non-toxic plastic.
- ✓ Tightly Sealed – Ensures no leaks and keeps water fresh for longer.
- ✓ Scratch-Resistant & Durable – Maintains a neat look from packaging to serving. The perfect finishing touch to your premium water bottle.

Best Quality Bottle Preforms

At Glacia WTR, quality begins at the very foundation — the bottle preform.

High-Grade Materials

We use only food-grade, BPA-free PET preforms that ensure safety, durability, and purity.

Precision Molding

Our preforms are crafted with advanced injection molding technology, guaranteeing consistent shape, size, and strength.

Lightweight yet Sturdy

Designed to be eco-friendly and cost-effective without compromising on durability or shelf appeal.

Perfect Fit for Customization

Our preforms offer a flawless surface for high-quality labels and branding, ensuring your design looks sharp and vibrant.

Strict Quality Checks

Each batch undergoes rigorous testing for strength, clarity, and safety before production.
